

Hepbron Food Service, Inc.

25 Gerday Drive
Wilmington, DE 19804

Hepbron Food Service, Inc. is a full-service cafeteria provider that has been providing services in the tri-state area for almost 40 years. Interaction with our customer is always our top priority. We welcome your suggestions and requests. Hepbron Food Service, Inc. is happy to provide our services for the students, faculty, and staff at Wilmington Christian School.

The service line enables the students to move through the line at a fast, more efficient rate which gives them more time to eat. All students, faculty and staff have been issued an ID number; that number is the 4-digit PIN number which will be entered into a keypad as they pass the register. If you are new to WCS, you can contact any of the school offices to get your child's ID number. These numbers should be kept confidential as they access each account. Our cashiers will be able to retrieve these numbers in the event that they are forgotten. You can fund your lunch accounts through MealPayPlus or send in a check made payable to Hepbron Food Service. You can, and should, monitor food purchases through the MealPayPlus system. The instructions for setting up your account online can be found on the Wilmington Christian School website.

Hepbron Food Service, Inc. lunch offerings include fresh, made to order sandwiches, wraps, paninis and salads. Hamburgers, hot dogs, cheese steaks, chicken cheese steaks, chicken tenders, fries, etc. will also be available. In addition, we will offer daily specials and seasonal soups. The menus will be posted on the Wilmington Christian School website.

If there should be a question regarding our services or your account, please contact our main office at 302-654-4905. We will assist you promptly.

Once again, we are eagerly looking forward to working with everyone at Wilmington Christian School. Please do not hesitate to contact us if you would like any additional information about our services. Also, please remember that we welcome your suggestions and requests.
